--- Data not available.

(1) Rates computed by relating total first births, regardless of the age of mother, to women aged 15-44 years.

(2) Beginning in 1997, rates computed by relating first births to women aged 45-54 years to women aged 45-49 years.

(3) Rates for 1981-89 are revised and therefore may differ from those published in Vital Statistics of the United States, Volume 1, Natality, for 1989 and previous years; see "Technical Appendix."

(4) Based on 100 percent of births in selected states and on a 50-percent sample of births in all other states; see "Technical Appendix."

(5) Based on a 50-percent sample of births.

(6) Based on a 20- to 50-percent sample of births.

(7) For method of adjustment see "Technical Appendix."

(8) Figures exclude data for residents of New Jersey; see "Technical Appendix."

(9) Rates for 1991 and 1992 based on data for 49 states and the District of Columbia which reported Hispanic origin on the birth certificate.

(10) Rates for 1990 based on data for 48 states and the District of Columbia which reported Hispanic origin on the birth certificate.

(11) Persons of Hispanic origin may be of any race.

NOTES: Race and Hispanic origin are reported separately on birth certificates. Race categories are consistent with the 1977 Office of Management and Budget standards. See "Technical Appendix." Six states reported multiple-race data for 2003. The multiple-race data for these states were bridged to the single-race categories of the 1977 Office of Management and Budget standards for comparability with other states; see "Technical Appendix."
